Although SYC has no powerboats available for member use, we do have powerboats that are used to support sailboat racing. Intro to power boating offers beginner to intermediate lessons for those interested in volunteering to help with race committee as well as those that are interested in learning and refining basic powerboating skills. You will be instructed in safe operation of SYC safety boats and race committee equipment. **2 hour lesson Minimum/3 hour maximum**

Parts of the boat | Engine Systems

Safety Equipment

Docking and Undocking

Slow Speed Maneuvering

Rules of the Road

Not all topics can be covered in one class. Topics tailored to the interests of the Students
